

Best For You

Morning Runner

Some things pull naturally,
A horse and carriage,
But it seems that we can't manage to pull you up.
These things have their own place and day,
Let's see how it works,
Out anyway. Only the best for you,
Only the best,
Only the best for you's enough for me.
Only the best for you,
Only the best,
Only the best for you's enough for me. Some things fall naturally,
A dying tree,
But it seems that we can't quite be free.
These things have their own pulse and seed,
Let's see what growing up,
This is gonna need. Only the best for you,
Only the best,
Only the best for you's enough for me.
Only the best for you,
Only the best,
Only the best for you's enough for me.
