

Conclusions

Amir

Picture this, we just met and as soon you're, crazy
You would wonder how I got this impression
You would wonder what made me think this way
Would you do when I'm out, just assumin'
Then I'm like all the other men
They're all more or less the same
No different
How can I convince you otherwise
If you already made your mind
Than you're all alike ooh,
If you haven't read the book and you've only seen the movie
More than a cover first try to get to know me
How did you come to these
How did you come to these
Conclusions, conclusions, conclusions, conclusions
'Cause they're all about me girl
Don't turn your heart away
Don't turn your heart away
Don't turn your heart away
Don't turn your heart away
'Cause are these conclusions
Picture this, we're watchin' a movie
Think more of it, but we're done seein'
Would you do, the same to me
Tryin' to predict me
Gotta seize this opportunity
Give ... edge tryin' learn me
Why did you make yourself just trust in me
See the best in me
If you haven't read the book and you've only seen the movie
More than a cover first try to get to know me
How did you come to these
How did you come to these
Conclusions, conclusions, conclusions, conclusions
'Cause they're all about me girl
Don't turn your heart away
Don't turn your heart away
Don't turn your heart away
Don't turn your heart away

'Cause are these conclusions
I'm more than what you see
Don't assume the worse in me
Girl I'm not judging you so you shouldn't do it to me x2If you haven't read the book and you've only seen the
movie
More than a cover first try to get to know me
How did you come to these
How did you come to these
Conclusions, conclusions, conclusions, conclusions
'Cause they're all about me girl
Don't turn your heart away
Don't turn your heart away
Don't turn your heart away
Don't turn your heart away
'Cause are these conclusions
