Meantime

Greenwich Meantime

I wasn't laughing properly
When you were talking to me
I didn't find it funny, your story didn't do it for me
False conversations, false conversations
And you thought that i was joking when i said you were a moron
When i said it i was smiling, so you thought that i was joking

[Chorus]
It's easy to try
It's easy any time
We can talk if we like
Let's forget it for the meantime

False conversations, a waste of time, false conversations
It's not interesting to have false conversations
You've stolen all your stories and I don't have the patience

[Chorus: x2]

You are a decent person and you have a function
So why do we say hello?
It's just a fashion that we follow that we should be forgetting
But then you do it again, you do the same again
You are a decent person and you have a function
So why do we say hello?
It's just a fashion that we follow that we should be forgetting
It's a fashion that we follow that we should be forgetting
It's a fashion that we follow that we should be forgetting
But then you do it again, you do the same again

[Chorus: x2]
