

# The Thrill

Miguel

Can you roll down a window  
I just wanna feel the wind blow, in my face Cause these moments go ugly and get undone  
That's why I never wanna close my eyes  
Yeah, I can feel them right in the air, tonight  
Got a trouble, you can tell [Chorus]  
And I, can't wait  
And I, can't wait  
It's the thrill I feel my heart beat racing  
And I, can't wait, can't wait Tell me johnny and jack know  
Shoot them up, shoot them down, Sh shh shooter  
Dancing up we never black out  
Nowadays, nowadays, never hesitate now Cause these moments go ugly and get undone  
And We're just laughing as we loose our mind, yeah  
It could be a riot in the air tonight  
Start to call it trouble, you can tell [Chorus] Till they play our song, till the lights go on  
Till we can't drive home  
Shout give me more, give me more  
Till were all alone, till we greet the sun  
Give me more, give me more, yeah  
Give me more, give me more [Chorus]
