Above All

Newsted

End of the world
Trend of the system
Bend of the curse
Hell will never miss them
Brains us to think
In tiny trains of thought
Time and time again
Mind overwroughtAbove all the people
Above all the creeps
Above all the steeples
Above all the freaksWeigh in, weigh out
Time fleeting by
Day in, day out
Life speeding by
Follow the same
Unwanted blind
Swallow your name and get left behindAbove all the people
Above all the creeps
Above all the steeples
Above all the freaksAbove all the people
Above all the creeps
Above all the steeples
Above all the freaksYou're freaking out
You're freaking out
You're freaking out
You're freaking out
You're freaking outSeven million breathe all at once
Heaven well conceived experience
Breeding ignorcance
Feed ignoranceA simple meaning
To a simple plan
The temple gleaming
Keep fooling man
The question won
Beat the answer
Riddle come undone
Fat lady dancesAbove all the people
Above all the creeps
Above all the steeples

Above all the freaksAbove all the people
Above all the creeps
Above all the steeples
Above all the freaksAbove all the freaks
Above all the freaks
Above all the freaksAbove all the people
Above all the people
Above all the people
Above all the peopleCome on people!
