Fall in Love with You

[David Allan Coe](#)

If I ever needed love, I need it now
Honey, why can't you see me through me
When I pretend that I'm to strong to bend?
This heart can mend a lover or a friend
Stop acting like you never knew meHow you fantasize, telling little lies
Fairy tales are all you ever see
Don't you realize how you hypnotize
Anyone who's fool enough to look back into your eyes?
And fall in love with youIf I ever wanted someone babe I need you now
Please don't place your self above me
Just out of reach when you could learn to teach
Me to begin loving you again
Why are you doing this to me?
