

Earth Calling

Billy Thorpe

Is their anyone out there earth calling
Is their anyone out there at all
Is their anyone out there earth calling
Trying to get throughOperator clear the line for me
Please place this call its an emergency
I just saw it on TV
We're running out of luck
Oh
More boozin
High places
More (?)
Arms races
Carving up this green oasis
In this world thats going up in (?)
And I just wanna get offIs their anyone out there earth calling
Is their anyone out there at all
Is their anyone out there earth calling
Trying to get throughOperator no I'm not confused
Please try again there is no time to lose
We've been wasting time so long
We're running out of years
Oh
More gadgets
More leasure
More germs
And less pleasure
Areasol less weather
And this world thats going up is frightening
And I just wanna get off
