

She Got To Move Me

Grand Funk Railroad

Feelin' kind of down 'cause I needed some female company
Suddenly I felt this pair of eyes starin' at me
She got to move me, she got the soul
No one would have told me she was only fourteen years old
How was I to know? She said
Get it up baby, don't you want me to shake that thing?
Get it up baby, drive me crazy, I'll do anything
Get it up baby, I came even to make you say, shake that thing Make me want to yell, make me want to shout
Make me want to scream, I didn't have to fantasize
She made me dream, she got to move me, she got the soul
Her eyes could tantalize for fourteen years old
How was I to know? Shake, oh She said
Get it up baby, don't you want me to shake that thing?
Get it up baby, drive me crazy, I'll do anything
Get it up baby, I came even to make you say, shake that thing She said
Get it up baby, don't you want me to shake that thing?
Get it up baby, drive me crazy, I'll do anything
Get it up baby, I came even to make you say, shake that thing
