

Everybody Loves Christmas

Eddie Money

It's 'round the corner now
Don't you love it?
Alright At home where I wanna be
Wrapping presents by the Christmas tree
With my baby, it's just my baby and me Got the little ones tucked in bed
Dreams of Santa running through their heads
So happy, it's so much fun to believe Julianne wants a rocking horse
My daughter Jessie wants a doll that talks
Little Johnny wants a BB gun
Momma here say he's just too young
Just too young Everybody loves Christmas
Everybody has fun
That time of the year, that holiday cheer
A good time for everyone Everybody loves Christmas
I will count the ways
You know it's almost here
Christmas Day
Christmas Day Checking off my list; I'm almost done
Had to buy a gift for everyone
It don't matter - it's just that time of the year
Alright I spend the money and I don't look back
Baby, you could wake up in a Cadillac
The man told me, said, "Don't worry, sign here" Everybody in the neighborhood
Got the houses looking really good
All your worries kinda disappear
It don't happen more than once a year
More than once a year Everybody loves Christmas
Everybody has fun
That time of the year, all the holiday cheer
A good time for everyone Everybody loves Christmas
I will count the days
You know it's almost here
Christmas Day (Christmas time is here again)
Everyone loves Christmas
(You can feel it everywhere)
It's that time of the year
(Little children having fun)
When the little kids cheer
(He has something for everyone) Everybody loves Christmas

Everybody has fun
(Ooh ooh ooh ooh)
That time of the year, all the holiday cheer
A good time for everyone Everybody loves Christmas
And I'm counting the ways
You know it's almost here
Christmas Day You know it's almost here
Christmas Day And now it's finally here
Christmas Day
Christmas Day
It's Christmas Day
Almost Christmas Day Everyone loves Christmas
Merry, merry Christmas
Everyone is having so much fun
Whoa-oh-oh-oh-oh
Didn't you sing it?
Sing it
Sing it
