

Be Mine

Pink Army

Whoa

Mach 1

Eh eh eh

This aint no school yard crush

Im telling you this aint no puppy love

Theres something so electric when we touch

So Im a go ahead give love a shove

I can see the future in your eyes I know that I need you

In my life

It surrounds me its pounding my heart yeah I found it I know this could be paradise I just wanna love you love
you love you love

I just wanna love you love you love you love

So baby if you wont get off my mind

Then you should be giving me your time

So come on put your hands up

If you want me stand up

Show it to the world that youll be mine

I just wanna love you love you love you love

I just wanna love you love you love you love

I wanna love you To be near you every day

Not knowing how you feel has got me crazed

I just need to know you feel the same

So tell me that you want me the same way

So come on make your move no time to waste cause you know that I wanna be

In your life

It surrounds me its pounding my heart yeah I found it I know this could be paradise I just wanna love you love
you love you love

I just wanna love you love you love you love

So baby if you wont get off my mind

Then you should be giving me your time

So come on put your hands up

If you want me stand up

Show it to the world that youll be mine

I just wanna love you love you love you love

I just wanna love you love you love you love

I wanna love you This is it the moment you tell me you want me

In your life

It surrounds you

Its pounding your heart

Yeah youve found it! I just wanna love you love you love you love
I just wanna love you love you love you love
So baby if you wont get off my mind
Then you should be giving me your time
So come on put your hands up
If you want me stand up
Show it to the world that youll be mine
I just wanna love you love you love you love
I just wanna love you love you love you love
I wanna love you
