My Money

Nate Dogg

I gonna make my money
I gonna make my money
I gonna make my money
I gonna make my money
From the time that I was only seventeen
I knew I loved to write, I knew I loved to sing, I've seen
I've seen about my friends and all the gangsta things we did
We did
Back in those days there was some who always said
You'll never make it, no, you'll never get ahead of time
I guess I'm going for mine, contrary to what they said
And I did, this is just to let you know
I gonna make my money
I gonna make my money
I gonna make my money
I gonna make my money
No matter what they say to me, I'm gonna make my money
And anyone who don't believe, best stay away from me
Been on a mash for currency since 1993
There ain't no way you stopping me, I'm determined as I can be
And if my funds get low again, one thing I can guarantee
You catch me by the corner store sellin' bad-ass bags of weed
Not because I think it's cool or because I think it's neat
It boils down to one simple fact, me and mines have got to eat
I gonna make my money
I gonna make my money
I gonna make my money
I gonna make my money
Tell me, have you ever heard G-Funk?
Tell me, have you ever heard?
Tell me, have you ever heard G-Funk?
Tell me, have you ever heard?
Tell me, have you ever heard G-Funk?
Tell me, have you ever heard?
Tell me, have you ever heard G-Funk?
Tell me, have you ever heard?
Nate Dogg and Warren G had to regulate
I gonna make my money
I gonna make my money

I gonna make my money
I gonna make my money
I gonna make my money
