Two by Two

The Features

I will love you till the sun don't shine
Hold you in my arms and call you mine
United as the states divide
We're gonna make it if we tryWe can work it all out
It's not what it seems
Holding on to your love
Holding on to my dreamWhen you call my name I will reply
On my trusty heart you can rely
No matter when no matter where
When you call my name I'll be right thereTwo by two they came
Things will never be the same
