

All Night

Swollen Members

Yeah, this is swollen members
Come on, another battle axe banger
Breakin' out the heat, showin' you what's really goin' on
Come on
Don't stop
Make it last all night
Hey ma' what's really good?
Shake ya' ass all night
Come on, get in the ride
Drive fast all night
But you already got a girl
That's alright
Don't stop
Make it last all night
Hey ma' what's really good?
Shake ya' ass all night
Come on, get in the ride
Drive fast all night
But you already got a girl
That's alright
What up ma', you wanna hang with a rock star
Hop into my truck, get stopped by a cop car
Hot as it supposed to get
Seem like the police, they don't like my associates
We some monsters in concert
Drunk in the middle of the club like who wants it
Mass appeal with massive wheels, bling-bling
Chocolate belt buckle, I'm the motorcycle ring king
Brand new breed, creek of vengeance
Bad muscle car with TV's and chromed out engines
Fuckin' models and smashin' glass bottles
Full blown, no helmet, full throttle
Rhinestone cowboy, desperado
Underground to winnin' the rap lotto
Now mad child's talkin' 'bout cash, son of a bitch
I was just broke before, it's more fun bein' rich
Don't stop
Make it last all night
Hey ma' what's really good?

Shake ya' ass all night
Come on, get in the ride
Drive fast all night
But you already got a girl
That's alright
Don't stop
Make it last all night
Hey ma' what's really good?
Shake ya' ass all night
Come on, get in the ride
Drive fast all night
But you already got a girl
That's alright
Yo' ma', you're so raw, hotter than solar

I like you so far, dancin' with no bra
Show me where them hands are, reachin' for my keys
It's cool we can roll, we do everything in three's
Four go with them, two come with me
Pound it like a drum, see how fun it can be
Now pull like a monster truck, at the crib
Who wants to fuck, this is life, live it up
Case closed, but there's more for later
Pushin' the buttons like space invaders
My whole pack is tattooed and black like villains
We can bounce tonight, but tomorrow don't catch feelin's
Don't stop
Make it last all night
Hey ma' what's really good?
Shake ya' ass all night
Come on, get in the ride
Drive fast all night
But you already got a girl
That's alright
Bouce, rock, drink, smoke, do whatever
Can't stop get more of this cheddar
Don't you love it when the plan comes together?
We doin' big things spend more of this cheddar
I hear them say glorious, how it must feel
We comin' through rollin' on rims bigger than bus wheels
And plus skill, that's a total package
You scared like airplanes and explode 'em package
That's the size of the damage we do, no amateur crew
We takin' care of business like a manager do, hey
Rhymes knowin' how I'm so fantastic

When I bend it and smack it, just ask the last chick
The beat knockin' like a brick to the head
It's moka o, and if you don't know I'm sick in the head, come on
Rippin' it, that's why I'm flippin' the bread
I got your neck nodding like a bitch addicted to head, ya' know
Don't stop
Make it last all night
Hey ma' what's really good?
Shake ya' ass all night
Come on, get in the ride
Drive fast all night
But you already got a girl
That's alright
Don't stop
Make it last all night
Hey ma' what's really good?
Shake ya' ass all night
Come on, get in the ride
Drive fast all night
But you already got a girl
That's alright
