Time Will Come

Mustard Plug

Girl since the day your eyes met mine,
I knew it from the start
You were going to steal my heart
Then, a world of doubt led you astray
Into his arms you went to lay
And through my tears I looked awaySo Ill wait and Ill pray
Til the day that you say that you will be mine
Yes Ill wait and Ill pray
Til the day that you say that you will be mineGirl, its time we got real,
Id be a fool to conceal
The world of love you make me feel
I know
I know our time will come
I know our time will come
