Hey girl how you doing? Do you feel like talking?
Or do you need me to call you back?
You from round what way and when's your birthday?
What's your zodiac sign?Well I'm a Virgo so my sign's compatible
We're gone get along just fine, yeah
What you do for fun? 'Cause I don't drink or club
I just like to chill with somebody like youEverything is cool when love is all brand new
'Cause you're learning me and I'm learning you
Its cool when love is all brand new
'Cause you're learning me and I'm learning youWhat type of work you do? Are you still in school?
Or do you have any kids?
Now if you did its alright, see I'm the type that don't mind
'Cause I can understand that things happen sometimesBy the way I'm wondering, are you cool with your family?
'Cause I would like to meet your parents someday
Let's hang out this weekend
Maybe we can begin something wonderful and beautiful causeEverything is cool when love is all brand new
'Cause you're learning me and I'm learning you
Its cool when love is all brand new
'Cause you're learning me and I'm learning youGirl it's so cool
Talking with you
It gets better every moment I spend with you
Girl you're so nice
And you so fine
Plus you're real and that's just what I likeEverything is cool when love is all brand new
'Cause you're learning me and I'm learning you
Its cool when love is all brand new
'Cause you're learning me and I'm learning youWhen love is all brand new
'Cause you're learning me and I'm learning you
Its cool when love is all brand new
'Cause you're learning me and I'm learning youWhen love is all brand new
'Cause you're learning me and I'm learning you
Its cool when love is all brand new
'Cause you're learning me and I'm learning you
