

# Man On A Mission

Richard Ashcroft

Hey, I heard you'd run away  
But where you gonna run?  
You got such a pretty face,  
And the world's a small, small place  
'cause when you're running on your own  
You know you ain't like a rolling stone  
Because a stone will find it's place  
And when you hear this space  
Just crawl and never run  
And when you're work is done

Then you'll see the sun So sing what you want I'm a man on a mission

No time to love, no time to be wasting but

I want to know if you feel above him

All the things you do that just make yourself feel undone, feel undone Blues, I heard you caught the blues

And what was it they said

Have you got out of bed, have you got out of that?

I know a headspace that you don't

I will - you cannot and you don't

A fortune has been made on all the illness they made

And then we've gotta pay for the drugs to take it away

And then you're gonna find there's nothing in your mind

That you don't already know, that you ain't already seen

Do you live in a dream? Sing your song, and don't you cause trouble

Man on a mission there's a man in a bubble but

I want to know if you feel above him

All the things you do that just make yourself feel undone, feel undone Sing your song, and don't you cause

trouble

Man on a mission there's a man in a bubble and

Play your cards, throw your dice

You get a piece of land and a piece of advice No time to be wasting there's no time to be wasted

No time to be wasting there's no time to get wasted

No time to be wasting always time to get wasted

No time to be wasting there's no time to get wasted There's always time to get wasted (There's no time to waste)

(4x)

There's always time to get wasted (No time to waste)

There's always time to get wasted (No time to waste)

They've got me wasting time (No time to waste)

Got me wasting time (No time to waste)

They got me wasting time (No time to waste)
