Out Of Time

Us5

A taxi waits for no one in another place
It waits and then it disappears without a trace
You stood upon the window sill and said goodbye
I watched you as you fell into a cloudy sky
And that is why
(We're out of time)
That is why, you and I
(We're out of time)
We're out of time
A life is just a life, it's just another day
I held you in the light and watched you slip away
You looked at me as if you never knew my name
Then said goodbye as though one day we'd meet again
That is why
(We're out of time)
That is why
(We're out of time)
You and I, we're out of time
Oh, it's never that good, no, it's never that bad
Just every little thing that's been drivin' you mad
And it's never all you, no, it's never all me
It's never anything that you want it to be
That is why
(We're out of time)
That is why, that is why
(We're out of time)
You and I, we're out of time
Out of time, out of time, ooh, ooh
We're out of time, ahh
We're out of time, whoa
