Key To The Highway

Eric Clapton

I got the key to the highway
Billed out and bound to go
I'm gonna leave here running
Walking goes too slowI'm going back to the border
Little girl, where I'm better known
'Cause you haven't done nothing
Drove a good man away from homeWhen the moon peek over the mountain
Little girl, I'll be on my way
I'm gonna roam this old highway
Until the break of dayGive me one more kiss darling
Little girl, just before I go
Because when I leave this time
I won't be back no moreI've got the key to the highway
Little darling, I got to go
I'm gonna leave here running
Walking goes too slow
