

# Country Girl

## Crosby, Stills, Nash & Young

Fell in love with a country girl, mornin' sunshine,  
She was up from a nether world, just to bust another soul  
Her eyes were an endless flame, unholy lady  
Desire wore a special name, made to snatch  
Your soul away, yeah  
We sailed away on a crimson tide,  
Down the river,  
Left my heart on the other side  
All to break it into bits  
Her smile was a winter song  
A Sabbath ending  
Don't sleep or you'll find me gone  
Just an image in the air, oh yeah

In dreams I think of you  
I don't know what to do with myself  
Time has let me down  
She brings broken dreams, falling stars  
The endless search for where you are  
So Wrong, so wrong, so wrong, so wrong  
Don't sail away on a crimson tide  
Don't leave your heart on another side  
She rides on an endless flame  
Desire wanna scratch your name  
Don't ever fall in love  
Don't give your heart away  
Don't ever, never fall in love  
With a country girl!
