

Perfect Angel Eyes

Annihilator

I gotta tell you what's on my mind
The time that I just spent with you
Never felt this good. It's never felt so right
I hope you feel the same way too[Chorus:]
But the darkness that you see
In your perfect angel eyes
And all the pain throughout the years
Your smile and that pretty face But I see through your disguise
Let me wipe away the tears
You're beautiful inside and outside too
A new beginning, me and you[Chorus:]
But the darkness that you see
Through your perfect angel eyes
And all the pain throughout the years
Your smile and that pretty face
But I see through your disguise
Let me wipe away your tears[Solo]
I hope you can turn to me in your darker days
When you're feeling all alone
I know a love this strong
Just cannot be denied
The time has finally come to spread your wings and fly[Chorus:]
The darkness that you see
Through your perfect angel eyes
And all the pain throughout the years
Your smile and that pretty face
But I see through your disguise
The dark you see from those perfect angel eyes
Just let me take away the fear
That smile and your pretty face
Like a shining star at night
Let me wipe away the tears
