

I Got You

(hed) P.e.

Nobody's waiting for you
Nobody's home
Nobody's listening to you
'Cause' nobody cares And they will never change
They are slowly dying
They will never go away
They have nothing to lose All my people come on
Choose your side
You're a long way from home
But not alone And they are afraid of you
'Cause you know their secret
I hear them praying for you
That you disappear They are the enemy
We are the fallen
Now they have us on our knees
We have nothing to lose All my people come on
Choose your side
You're a long way from home
But not alone Keep your head up
Keep it real, stay down
You're a long long way from home
You're not alone I got you
I got you
I got you
I got you Yeah, I got you
I got you
Yeah, I got you
I got you
Yeah, I got you Now who wanna ride with me
Bring pain to the powers that be
Young rebels start a riot with me
Hear me, fear me The sky was blood red on New Year's Day
One thousand candles light the way
Ten thousand souls are restless
Ten million hungry Eat the rich, but pay me motherfucker
In the next episode, I load and reload
It's kill or be killed, sell or be sold
In this life, in this time, in my mind
I gotta stay high, 'cause I got left behind All my people come on

Choose your side
You're a long way from home
But not alone Keep your head up, come on
Keep it real, stay down
You're a long long way from home
You're not alone I got you
I got you
I got you
I got you Yeah, I got you
I got you
Yeah, I got you
I got you
Yeah, I got you Now who wanna ride with me
Bring pain to the powers that be
Young rebels start a riot with me
Hear me, fear me Now who wanna ride with me
Get buck an' wild with me
Well, jump into the fire with me
Hear me, fear me I got you
I got you
I got you
Yeah, I got you I got you
I got you
I got you
Yeah
