

Scars

Casey McQuillen

I didn't mean for us
To wind up in this rut
To let it go so far
And watch it fall apart

I always meant for you
To have it all come true
But then we broke our hearts
There are scars, scars, scars, scars

And sometimes you wanted to say
You don't love her that way
She will never see
That she is no me

What happened to us?
What happened to love?
What happened to never change?
To 'always will feel this way'?
What happened to us?
To our love?
Does it feel the same
When she calls your name?

Tell me did you plan
When you held her hand
That I'd be walking by
You want to make me cry

'Cause I made you sad
And now you're getting mad
And I heart your heart
There are scars, scars, scars, scars

And sometimes you wanted to say
You don't love her that way
She will never see
That she is no me

What happened to us?

What happened to love?
What happened to never change?
To 'always will feel this way'?
What happened to us?
To our love?
Does it feel the same
When she calls your name?

And sometimes you want to scream
That you've forgotten how to dream, dream...
And sometimes you want to scream
That you've forgotten how to dream, dream...

What happened to us?
What happened to love?
What happened to never change?
To 'always will feel this way'?
What happened to us?
To our love?
Does it feel the same
When she calls your name?

Dreamâ€¦
