Your Room

Tamar

Ooh, hey, don't you I love the way
You take me to the limit every time babe
And don't you know?
I can't deny, boy, that I love
I love, I love the things you do
When we're alone
Alone in your room
I want, to open up and give you more of me this time
When we're alone, alone in your room
Your room, your room
Alone in your room
Your room, your room
Yeah, when you kiss me all right there
I can't describe the feeling deep inside, yeah, yeah
When you touch me, boy, I wish it could last forever
And a night, ooh
When you touch me baby, I can't explain how it feels
It makes me want to be with you always
When we're alone, I must admit
That I cannot control myself you're so unreal

I love, I love the things you do
When we're alone
Alone in your room
I want, to open up and give you more of me this time
When we're alone, alone in your room
Your room, your room
Alone in your room
Your room, your room
When you touch me baby, I can't explain how it feels
It makes me want to be with you always
When we're alone, I must admit
That I cannot control myself you're so unreal
I love, I love the things you do
When we're alone
Alone in your room
I want, to open up and give you more of me this time
When we're alone, alone in your room
Your room, your room

Alone in your room
Your room, your room
