

Across The Great Divide

Semisonic

Over mountains
That's where my love lives
A long, long ride to sunland
Here, where I did this Across the great divide alone
Wondering, open, afraid and
Arriving alive, unknown
Unknown, unwise and unaided If I could, I might
Send my love on a plane ride
A black cross high in a blue sky
A green cross gliding on a million pines Across the great divide alone
Wondering, open, afraid and
Arriving alive, unknown
Unknown, unwise and unaided Across the great divide alone
Wondering, open, afraid and
Arriving alive, unknown
Unknown, unwise and unaided Across the great divide alone
Wondering, open, afraid and
Arriving alive, unknown
Unknown, unwise and unaided Across the great divide alone
Wondering, open, afraid and
Arriving alive, unknown
Unknown, unwise and unaided Across the great divide alone
Wondering, open, afraid and
Arriving alive, unknown
Unknown, unwise and unaided
