

# Heyamama

DJ Bobo

Heya mama ma heyama  
Heya mama ma heyama  
Heya mama ma heyama  
I've got the music in me I've got the music in me, deep in me  
And I'll never feel alone  
I've got the music in me, deep in me  
Let it goin' on and on On our mission to no man's land  
We followed the traces in the sand to a  
Land, never seen before  
Without mountains and valleys and lakes without shores  
All my friends disappeared  
Being alone that's all they feared  
Transformed by a metamorphosis  
A matter of time and I'll be like this  
In the dark there's shining an invisible  
Light, cold and bright through the night  
Made by an enemy or made by a friend  
What does it mean, I can't understand  
The drums are calling boom, boom, boom  
I'm ready to rumble, when the fight resumes  
Left alone on my own, I'm  
Captured in a danger zone Hundreds of voices in the deep dark night  
Searching for a light, avoiding the fight  
I feel there is someone else beside me  
Around the tree, mysteriously  
Time is running fast, I'm the last of the past,  
Time is running fast, I'm the last  
I hear the ticking of a bomb inside my head  
Tic tac, tic tac waiting for the big attack  
I'm the last survivor of the expedition  
Of a mission, into a no man's land  
Like explorers, like strangers  
We saw shades of a dwarf but didn't see the danger  
Surrounded by a groove I was hypnotised  
Tried to run away but my feet didn't move  
Left alone on my own, I'm  
Captured in a danger zone
