Bloodrock

Trixter

What do you feel alone in the night
Can you hear the voices calling
Can you see the light
What does it mean when hunger's temptation
Blinds reality with intoxication
It comes alive and it possesses all your senses
It takes you where you've never
Ever been before
Bloodrock feel the shock
Oh, oh emotional, pleasure, pain
Bloodrock hear the shot
Oh, oh insanity, seduction, cain
Nowhere to hide this manic asylum
Where some thrill the fever
And dance with desire
Forget your fears forget your frustrations
There's no escape from this mind infestation
It overdrives you to the point of no return
It takes you where you've never
Ever been before
Bloodrock feel the shock
Oh, oh emotional, pleasure, pain
Bloodrock hear the shot
Oh, oh insanity, seduction, cain
