

Something About Your Smile

Tinchy Stryder

Boy when Im around you I get weak,
My heart starts pumpin a crazy beat
Words in my mouth but I cant speak,
Baby I cant breathe with you next to me.
Gota check my lungs see if they still work
Gota check my heart underneath my shirt.
I think Im in love,
Theres something about your smile.From the hat to the kicks Im matching
All day everyday girl I aint acting.
I come across like I aint got manners
But somehow all these girls Im attracting.
She said its something about you
I said naar its the whip that got you.
Then why does it feel like I need you
Oh thats normal I does this babes,
I got stong girls getting weak these days.
Private calling on my phone up late
I aint tryna got none of the laces,
But me Im a sly one ill move to your mate.
I aint tryna spend all ight and the next day,
Ill move in the morning be gone by eight.For some reason this girl still likes me,
And I know cause she keeps tellin me.
Boy when Im around you I get weak,
My heart starts pumpin a crazy beat
Words in my mouth but I cant speak,
Baby I cant breathe with you next to me.
Gota check my lungs see if they still work
Gota check my heart underneath my shirt.
I think Im in love,
Theres something about your smile.Just a little something something (She said theres)
Just a little something something (She tried to tell me that theres)
Just a little something something,
Theres something about your smile.
About your smile.Ok maybe its the smile on my face but,
I think your in love with my name tag.
You see me though Im humble I dont brag
But its bait that my garms been whipped by girls
Tryna get me to the next step
Im like slow it down we aint even met yet.

Shes like how did you get me to go that
Oh that normal I does this babes.
Im still shining without no necklace,
On the block all day like Im pumping weight.
But trust me there aint no bench press,
Already had three of your friends two more left.
Im a flat Im active I cant rest,
You aint met anyone like me not yet. For some reason this girl still likes me,
And I know cause she keeps tellin me.
Boy when Im around you I get weak,
My heart starts pumpin a crazy beat
Words in my mouth but I cant speak,
Baby I cant breathe with you next to me.
Gota check my lungs see if they still work
Gota check my heart underneath my shirt.
I think Im in love,
Theres something about your smile. Just a little something something (She said theres)
Just a little something something (She tried to tell me that theres)
Just a little something something,
Theres something about your smile.
About your smile. Naar rudegirl I aint gonna buy that.
Cause I know that its more than a smile on my face that,
Got you all hooked up,
Acting like you was the
And I was the
I got girl getting down in my hatchback,
Thats why im like G dont touch that.
Shes like how did you get me to do that,
Oh thats normal I does this babes,
I got strong girls getting weak these days.
Private callin on my phone up late.
Im like I aint never gonna hold back
Im drawn Im a dealer
Dont bring your friend round me Im a sceamer.
Im a pimp bad Im a cheater. For some reason this girl still likes me,
And I know cause she keeps tellin me.
Boy when Im around you I get weak,
My heart starts pumpin a crazy beat
Words in my mouth but I cant speak,
Baby I cant breathe with you next to me.
Gota check my lungs see if they still work
Gota check my heart underneath my shirt.
I think Im in love,
Theres something about your smile.
About your smile.
