Song For a Friend

Pieta Brown

The whistle blows at five so you can go home
The heart comes alive so you donâ€™t go alone
Just a song for a friend
And I hope we meet again
And I met you in a dream
You were on your own
Holding out your hand telling me to hold on
Just a song for a friend
And I hope we meet again
Cause when I saw you in the rain
I didnâ€™t catch your name
Well the rain comes down so the sun will shine
The light comes in and heâ€™s out, just mine
Just a song for a friend
And I hope we meet again
Cause when I saw you on the street
You were looking so beat
And we walked up to the desert it was so dry
But you combed your hair with water and you didnâ€™t say goodbye
Just a song for a friend
And I hope we meet again
The river in my day, it was so red
I was looking for the bank, I found you instead
Just a song for a friend
And I hope we meet again
