Until

Tina Arena

[Verse 1]If this is how the story ends,
Where does it all begin?
Can I find?, is it here inside?
Silent feelings all around
There's something we don't understand
And now I'll never know
All that you mean to me
Until ..
[Chorus 1]The rain no longer falls
And the wind forgets to call
I guess I never read the signs
You're just a fragment in my mind
When the sun forgets to shine
We all committed to the crime
And now we waiting here
Until
[Verse 2]If you believe in harmony
Is this a place you want to be?
We're out of touch
And out of time
Blinding beauty all around
A thousand things that still astound
Is this how it was meant to be?
Or are we waiting here
Until ?..

[Chorus 2]The rain no longer falls
And the wind forgets to call
I guess I never read the signs
Your just a fragment in my mind
When the sun forgets to shine
We're all committed to the crime
And now we're all just
Waiting here
Until
[Middle 8]Can you still remember
The sunset in September ?
We thought it was forever
We thought it was forever

[Chorus 3]When the rain no longer falls
And the wind forgets to call
I never read the signs
You're just a fragment in my mind
When the sun forgets to shine
We all committed to the crime
And now we're all just
Waiting here until
Yeah yeah
Until ..
Can you still remember?
We thought it lasts forever
Until
Until
