

# It's Getting Better All The Time

Brooks & Dunn

I don't stop breathin' every time the phone rings  
My heart don't race when someone's at my door  
I've almost given up thinkin' you're ever gonna call  
I don't believe in magic anymore  
I just don't lie awake at night,  
Askin' God to get you off my mind[Chorus]  
It's gettin' better all the time,  
It's gettin' better all the time Yeah, I got to work on time again this mornin'  
This old job is all that I got a left  
And no one even noticed I'd been cryin'  
But, at least I don't have whiskey on my breath  
Yeah, I think I'm gonna make it  
'Cause God won't make a mountain I can't climb[Chorus] God, I hope you're happy  
Girl, I wish you well  
I just might get over you  
You can't ever tell I always thought that I'd do somethin' crazy  
If I ever saw you out with someone else  
But when the moment came last night,  
I couldn't say a word  
I stood there in the dark hall by myself  
Yeah, I could have said a million things  
But all I did was keep it locked inside[Chorus] It's gettin' better all the time
