Sleep With Me

City Sleeps

Your heart is tired of feelin'
Your hand is lettin' go off mine
The night has fallen and it's stealin'
The last of our little life this timeIn the arms of eternity
Twilight finds you in my arms
The mornin' finds you goneWe gotta dream forever
We have to pretend we're still in love
And I wouldn't dare try to wake you
Sleep with me, a dream in loveIn the arms of eternity
Twilight finds you in my arms
The mornin' finds you goneIn the arms of eternity
Twilight finds you in my arms
The mornin' finds you goneWe gotta dream forever
We gotta pretend we're still in love
And I wouldn't dare try to wake you
Sleep with me, a dream in loveWhen newborn rays of sun
Dare to shine through this day
Cold virgin air is just all that remains
In my cold let darkness fallWe gotta dream forever
We gotta pretend we're still in love
I wouldn't dare try to wake you
Sleep with me, a dream in love
Sleep with me, a dream in love
Sleep with me, a dream in love
