Happily Ever After

Mount Sims

Happily ever after, I'll be
Let's start a story chapter
Happily ever after, we'll be
Never have to ask for no more
After loving you I'm secure
Because I'm your queen and you're my king
We could maybe get married
And probably even have have a seed and make me your wife
We can buy a big house and try to live the good life
I want you to know that if it ever gets hard, I'm staying
By your side for sure, won't go
The fairytale said it best when it said, "Happily ever after"
Happily ever after, I'll be
You're cool with me
Let's start a story chapter
And someday a family
Happily ever after, we'll be
Never have to ask for no more
After loving you I'm secure
There ain't a problem that we can't fix
'Cause all relationships are made of this
Sometimes we fight and argue then make up
Then later we'll be making' love, it's alright
'Cause in the end we'll always be
Happily ever after, I'll be
You're cool with me
Let's start a story chapter
And someday a family
Happily ever after, we'll be
Never have to ask for no more
After loving you I'm secure
Days are gonna come, days are gonna pass
But still our love will last
Don't care what it is, our love will make it
When you're here with me, feels like it's a dream
I never want to leave as long as you're near
I'm gonna be, be
Happily ever after, I'll be
You're cool with me

Let's start a story chapter
And someday a family
Happily ever after, we'll be
Never have to ask for no more
After loving you I'm secure
Happily ever after, I'll be
You're cool with me
Let's start a story chapter
And someday a family
Happily ever after, we'll be
Never have to ask for no more
After loving you, I'm secure
Happily ever after
I am gonna be
Let's start a story chapter
Let's start a story chapter, baby
Happily ever after, we'll be
Never have to ask for no more
After loving you I'm secure
Happily ever after, I'll be
You're cool with me
Let's start a story chapter
And someday a family
