

# Money

## Space

Some folks think I'm greedy and I just take from you  
And if I say it's true now, what good would that do? And if I wanted to be funny, I could say that all the money  
That you spent on me was just from fraud  
And if I wanted to be bitter, I could say that little by little  
All you did for me was no good I didn't lose your money, I didn't lose your money  
Oh no your money just lost, you brought me up this way  
When just a little bit of love might have changed my ways Some folks help the needy, me I just help myself  
And if I shared with you now, it would steadily decrease my wealth And if I saw you on the streets with worn  
out shoes upon your feet  
I wouldn't spare you the prices of a cup of tea  
I know you brought me from the gutter, helped me earn my bread  
And butter but I have a lousy memory I didn't lose your money, oh no, I didn't lose your money  
I didn't lose your money, oh no, your money just lost  
You brought me up this way when just a little bit of love  
Might have changed my ways When just a little bit and just a little bit and just a little bit  
And just a little bit and just a little bit of love, love  
Love, love could have changed my ways
