This Is for Love

Wolfsheim

You've got to do it, do something right now
There's no time for waiting anyhow
You've got to do it, everything went wrong
Something has to happenSomewhat strong it has to be
Something for everyone to see
This is for love, this is for hate
And there were never higher stakesYou've got to do it right
And you know just what to do
We know you will
And you know just what to do
We'll love you stillWe know you will
And then you'll discover this is no dream
Life is as real as it seems
And if someone says, "They have to pay the toll"
Don't believe it at allYou've got to do it, anything right now
There's no time for waiting anyhow
You've got to do it, anything right now
There's no time for waiting anyhowThis is for love, this is for hate
And there were never higher stakes
Somewhat strong it has to be
There's something for everyone to seeYou've got to do it right
And you know just what to do
We know you will
And you know just what to doYou've got to do it, anything right now
There's no time for waiting anyhow
You've got to do it, anything right now
There's no time for waiting anyhow
There's no time for waiting anyhow
There's no time for waiting anyhow
