

# This Is for Love

## Wolfsheim

You've got to do it, do something right now  
There's no time for waiting anyhow  
You've got to do it, everything went wrong  
Something has to happenSomewhat strong it has to be  
Something for everyone to see  
This is for love, this is for hate  
And there were never higher stakesYou've got to do it right  
And you know just what to do  
We know you will  
And you know just what to do  
We'll love you stillWe know you will  
And then you'll discover this is no dream  
Life is as real as it seems  
And if someone says, "They have to pay the toll"  
Don't believe it at allYou've got to do it, anything right now  
There's no time for waiting anyhow  
You've got to do it, anything right now  
There's no time for waiting anyhowThis is for love, this is for hate  
And there were never higher stakes  
Somewhat strong it has to be  
There's something for everyone to seeYou've got to do it right  
And you know just what to do  
We know you will  
And you know just what to doYou've got to do it, anything right now  
There's no time for waiting anyhow  
You've got to do it, anything right now  
There's no time for waiting anyhow  
There's no time for waiting anyhow  
There's no time for waiting anyhow
