Put Me Down

Matt Lucas

If I laced you, would you lace me back?
If I blazed you, would you blaze me back?
Spinning big faces on the things you like
When you gonna put me down?If I ride for you, I die for you
If I floss then any calls for you
Shorty, all I wanna know from you
Is when you gonna put me down?First time I saw you, I was breathless
Looking flawless, dipping on a neckless
And I had to add you to my guest list
Let you pass, I had to put it downWe sipped and kicked a little convo
It's time to head back to the condo
And I know what we both came here for
Let me know what you feelin' nowIf you wanna open up and show me your love
Stop playing around and putting it down
Stop holding back, you gotta react
When you gonna hold me down?Your perkin', push the workin'
Always flirtin', got me hurtin'
And you know, I don't deserve this girl
When you gonna hold me down?If I laced you, would you lace me back?
If I blazed you, would you blaze me back?
Spinning big faces on the things you like
When you gonna put me down?If I ride for you, I die for you
If I floss then any calls for you
Shorty, all I wanna know from you
Is when you gonna put me down?Shorty, I'm not tryin' to put a rush on you
Can you leave me with my love on blue
Nobody's here, we better make a move
I wanna get into youI roll up the floor so when I cut back
Frontin' on my love, now Shorty stop that
What's it gonna be, when are we gonna put it down
I need to know right nowIf you wanna open up and show me your love
Stop playing around and putting it down
Stop holding back, you gotta react
When you gonna hold me down?Your perkin', push the workin'
Always flirtin', got me hurtin'
And you know, I don't deserve this girl
When you gonna hold me down?If I laced you, would you lace me back?
If I blazed you, would you blaze me back?
Spinning big faces on the things you like

When you gonna put me down?If I ride for you, I die for you
If I floss then any calls for you
Shorty, all I wanna know from you
Is when you gonna put me down?On the top floor, in the president suite
With the tinted windows in the back of my jeep
Or your friends house on the living room couch
If you let me hit it, I'm gone, blaze it outWon't you open up, let me come on in
And I'll never stop, we can do it again
'Cause you take it right where I wanna be
Got me in ecstasyI wanna know
I gotta know when you gonna let me see it
When you gone, let me hit it
'Cause girl, you know I'm gonna get itI wanna know
I gotta know when you gonna let me see it
When you gone, let me hit it
'Cause girl, you know I'm gonna get itIf I laced you, would you lace me back?
If I blazed you, would you blaze me back?
Spinning big faces on the things you like
When you gonna put me down?If I ride for you, I die for you
If I floss then any calls for you
Shorty, all I wanna know from you
Is when you gonna put me down?If I laced you, would you lace me back?
If I blazed you, would you blaze me back?
Spinning big faces on the things you like
When you gonna put me down?If I cry for you, I die for you
If I floss then any calls for you
Shorty, all I wanna know from you
Is when you gonna put me down?I wanna know
I gotta know when you gonna let me see it
When you gone, let me hit it
'Cause girl you know, I'm gonna get itI gotta know
'Cause your spendin' my doh
I gotta know
Spending my doh
