

Cold Cold Cold

Cage the Elephant

Doctor look into my eyes
I've been breathing air but there's no sign of life
Doctor the problem's in my chest
My heart feels cold as ice but it's anybody's guess(Refrain)
Doctor can you help me 'cause I don't feel right
Better make it fast before I change my mind
Doctor can you help me 'cause I don't feel right
Better make it fast before I change my mind Well it's cold cold cold cold inside
Darker in the day than in the dead of night
Cold cold cold cold inside
Doctor can you help e'cause something don't feel right
Something don't feel right Sweet nurse don't look at me that way
I've seen those eyes before I can tell you want to play
Counselor give me some advice
Tell me how hard will I fall if I live a double life(Refrain) And as the darkness falls it fills up both my eyes
My life before me like a flash in the night
With my arms open wide Well it's cold cold cold cold inside
Cold cold cold cold inside
Cold cold cold cold inside
Doctor can you help me 'cause something don't feel right
Something don't feel right something just ain't right
