Friends Forever

Dan Siegel

Sometimes people come into your life
Like they're meant to be
And suddenly you've found someone
Who sees the world like you see
And you laugh like crazy
At all the crazy things
That no one thinks are funny but you
That's when I knew
That I had a friend so true
If my world were crumbling down
You are the one I'd want around
Cause through everything you've shown me that
You were the one who had my back
(Chorus)
Remember the laughs
Then add up the dreams
And take it to the nth degree
We'll be friends forever
Cause youç-¶l be forever in my heart
That's where best friends are
There will always be hard times
I'm glad I've got you to see me through
And I will never forget your smile
I just have to say thank you

For being there always
Even the darkest days
Especially when you didn't have to
That's when I knew
I had a friend in you
So if your world should fall apart
Call me I'll run to where you are
I only hope that I can be
Half of the friend you've been to me
(Chorus)
(Bridge)
Where would I be
Without you by my side loving me
Anyone can see that we
