

Talk Talk Talk

Mansions

The first thing that you said to me
Was that "your life is so interesting"
So I follow it from week to week
Like a TV show

And everything you did was so
Idealised and enviable
Your perfect life, it got so old
So I turned my head
Yeah, I turned my head

'Cause all you do is talk, talk, talk
All about yourself, self, self
And I wonder if anybody else
Sees through your smile
When you're going on and on
I never want the things you want
Would it kill you to
See that it's not cute
To anyone who isn't you

You sat down on the couch and said,
"What's going on, how have you been?"
But you weren't really listening
I could tell by how
You act like my lips never move
Not then make it about you
Tell me all the things you do and
If I care
But honey, I don't care

'Cause all you do is talk, talk, talk
All about yourself, self, self
And I wonder if anybody else
Sees through your smile
When you're going on and on
I never want the things you want
Would it kill you to
See that it's not cute

To anyone who isn't you

Wish you were the exception and not the rule

But sadly baby, that's not true

Everyone acts just like you

So I think that I will too

All you do is talk, talk, talk

All about yourself, self, self

And I wonder if anybody else

Sees through your smile

When you're going on and on

I never want the things you want

Would it kill you to

See that it's not cute

To anyone who isn't you

'Cause all you do is talk, talk, talk

All about yourself, self, self

Would it kill you to

See that it's not cute

To anyone who isn't you
