Bankrupt Vibration

Superdrag

Advisory - the following lyrics contain explicit language:

I couldn't help turning on
But I never tuned in
Now I want to drop outYou'll swallow any little pill
Taking everything in
Sucking every nerve outAnd your alternative station
Is such a bankrupt vibration
Counting on the confusion
Of an alternative nationAll the terminal patients
Demand a strong medication
Getting on with the big show
We celebrate what you don't knowJumpin' out of the window
Jumpin' out of the window
Jumpin' out of the windowI know the name of the game
Any rock and roll star
Is a pitiful shameI can't decide where to run
Tell me, what have I done?
Tell me, what have I done?And your alternative station
Is such a bankrupt vibration
Counting on the confusion
Of an alternative nationAll the terminal patients
Demand a strong medication
Getting on with the big show
We celebrate what you don't knowJumpin' out of the window
Jumpin' out of the window
Jumpin' out of the window
