

Thank God

Ice Cube

I do gangsta rap
They wanna blame world problems on gangsta rap
It's our fault cuz motherfuckers is dyin' in Iraq
It's our fault cuz motherfuckers is starvin' in Africa
It's gangsta rap fault that people are poor can't get
enough to fuckin' eat or live their life!
That's rap music fault!

It's rap music fault that we got all this goddamn laws
and restriction and shit we can't do
They blame it all on us
I'm blamin' em for gangsta rap because if they didn't create
this kind of condition I wouldn't have shit to rap about!
You know what I mean?

All right, all right, everybody backup, star status comming through.
