

# Good To Be Alive

## DJ Rap

Don't crucify if I feel alive  
It's a natural high and I'm satisfied Absolved from sin  
I called the devil from within  
He told me live my life  
Don't let them criticize It's good to be alive  
Sometimes I wonder how I survived  
And in my mind's eye  
When you're low no-one seems to know  
A fallen angel tonight  
I feel no shame when I'm high  
It feels so good must be right  
It feels so good inside  
Inside I'd love to love you but I'm too impure an angel X3  
I'd love to love you Don't compromise  
You don't live my life  
'Cos I don't judge you  
When I look in your eyes It's good to be alive  
Sometimes I wonder how I survived  
And in my mind's eye  
When you're low no-one seems to know  
A fallen angel tonight  
I feel no shame when I'm high  
It feels so good must be right  
It feels so good inside  
Inside I'd love to love you..
