

# Stop Running

## Ildisposed

Change the pace, move away  
Breathing down your neck  
My eyes are set on your defeat  
No chance to escape

Stop running - turn around  
Stop running - turn around  
Stop running - better let me win  
Return, best give in  
Stop running - turn around

Now it's time, live in fear  
Fatal as the end is near  
The flashing of a life  
Appears within your eyes
