Devotion

Jessie Ware

Used to be so close to me
Everything happened so easily
Life with you is like a dream
Without you there's no way to be
I need your devotion
I need your devotion
Ready to love but do you want it enough
Can we find a way to bring you back again
You say u want to love but do u want it enough
The end of us it never hurt so much
I need your devotion

I need your devotion
Don't leave me in the dark
Don't leave me this way
Cuz nothings making sense today
I need u in my heart
I need u to stay
(I need ur love)
I need your devotion
I need your devotion
Running away are you running to me (x6)
