

# For the Money

## Montgomery Gentry

Ah, let me tell you a little story about my familyDaddy almost made a livin'

With eighty acres and a plow

He could have bought that place twice over

Workin' for someone in townAh, but you should have seen him

In his fields at harvest time

You'd swear the gates of heaven opened

He was standin' first in lineYou can be in it for the money

(For the money)

Money comes and money goes

You can be in it for the money

(For the money)

Oh, you gotta satisfy your soulI grabbed the world when I turned eighteen

I turned it over and I shook it hard

I filled my pockets up with money

But it burned a whole right through my heartYou can be in it for the money

(For the money)

Money comes and money goes

You can be in it for the money

(For the money)

Oh, you gotta satisfy your soulYou know everybody's got a purpose

From mendin' bones to tendin' bar

You might say that I found mine

When I wrap my hands around this guitarAnd I still wonder if I'm crazy

Tryin' to bring a dream to life

But I look forward to tomorrow

And I sleep pretty good at nightYou can be in it for the money

(For the money)

Money comes and money goes

You can be in it for the money

(For the money)

Oh, you gotta satisfy your soulYou can be in it for the money

(For the money)

You can be in it for the money

(For the money)
