

# Nozzle

## Rasputina

Nozzle, nodule, eraser, chip  
A few thoughts on the subject  
By a little nothing What was so obviously strange?  
Yet mystifyingly true about the whole situation  
Was Miss Connie Pollyp's failure to grasp  
That the time was indeed now  
If she was to ever recover vitality  
To her mortal envelope Oh sure, she liked per-perfume  
And she had a lot of it, too  
But pampered wisps  
Do not a cloth doll make and there we have  
A lesson that is easier to speak of  
Than it is to, how you say, live by?
