The Only Good One's a Dead One

Pig

I cannot hurt but it don't mean nothing
I cannot hide but it don't mean nothing
I cannot hurt I cannot feel
Come kiss the cut I will heal
One poison pill, bedlam burns
I clutch the cradle of corrosion!
Never again comes again and again, again
Hatred hangs high but it don't mean nothing
Tied to the guilt edged crime means nothing
One poison pill, bedlam burns
I clutch the cradle of corrosion!
Never again comes again and again, again
Reinforce need but it don't mean nothing
Sign on the line but it don't mean nothing
One poison pill, bedlam burns
I clutch the cradle of corrosion!
Never again comes again and again, again
One poison pill, bedlam burns
I clutch the cradle of corrosion!
Never again comes again and again, again
