

Hello Fascination (Sex Machine Remix)

Breathe Carolina

Here's to you, glorify, my darlings, are you satisfied?
Here's to you, criticize, my darlings, are you satisfied? You build me up just to break me down
You're being loud without a sound
You paste me in just to cut me out
Hello fascination You've dug my grave, but I pushed you in
I didn't give life to you, but you took it from me
But now I'm taking it back, I know you wanna push me Here's to you, glorify, my darlings, are you satisfied?
Here's to you, criticize, my darlings, are you satisfied? You build me up just to break me down
You're being loud without a sound
You paste me in just to cut me out
Hello fascination You're questioning the answers of the faith you've put in me
You're questioning the answers of the faith you've put in me
You've dug my grave
You've dug my grave You build me up just to break me down
You're being loud without a sound
You paste me in just to cut me out
Hello fascination You build me up just to break me down
You're being loud without a sound
You paste me in just to cut me out
Hello fascination Whoa-oh-oh, whoa-oh-oh, whoa-oh-oh
Hello fascination
