

Deathwish (Wishful Death Mix)

Christian Death

I see the end, I see the end
Well, it was open so I crawled inside
Someone up ahead was cryin'
Someone up ahead was dyin'
Lost in the darkness, lost in today When you can only lose it to your mind
You got to lose it to your mind
Waves an' waves of tranquility hit hard on your innocence
Well, discarding all that was before, let's crawl inside La virginal souls devoured without shame
We lick our lips clean, so clean
An' no one outside knows
No one outside knows what it means
To me, to be set free When you can only lose it to your mind
You got to lose it to your mind
Waves an' waves of tranquility hit hard on your innocence
Well, discarding all that was before, let's crawl inside
