

In This Game

[Fritz Kalkbrenner](#)

A night so dark
None to see for a broken heart
And a place so quiet
Where all ins and out don't seem right
Dub a chance, I'm gone
Far gone
From the sound of the playground fading
I couldn't get along
We hate to lose on this bad luck run
Playing our cards fair but still holding on
Desire to find a chance to change who we've become
Or were we broken slowly before our time has come
In this game we spin
In this game we lead
In this game we win
In this game we bleed
A day so bright
Hard to hang on in the blazing light
And I seem so loud
No one is getting what it's all about
Another far, I'm here
Here and now
I pick my poison
Count my blessings
Until it's all played out
We hate to lose on this bad luck run
Playing our cards fair but still holding on
Desire to find a chance to change who we've become
Or were we broken slowly before our time has come
In this game we spin
In this game we lead
In this game we win
In this game we bleed
In this game we spin
In this game we lead
In this game we win
In this game we bleed
In this game we spin
In this game we lead
In this game we win
In this game we bleed
